My Dearest Mary,

The Report of Mrs. Amelia conveyed in your kind letter and that received from Doctor Cope are, upon the whole, as satisfactory as I could expect, though far from what I most anxiously wish them to be. I am glad that you have been able to make her take some nourishment and should the Sapping be resorted to, I hope that it may relieve, without weakening her too much. — The accounts which I continue to receive of poor Ernest are, under all circumstances, as favourable as I could flatter myself they would be.

Believe me to

(Signed)

George R.
