My Dearest Mary, I feel very thankful to you for your very kind letter, and for the Remarks with which you have accompanied your Report respecting dear Amelia; in the Justice of which I entirely concur, as I have often been surpris'd that her Spirits have been so well kept up, under the Influence of a long and painful Confinement, and I have admir'd the Calmness and Resignation which she has shown. It is satisfactory that Sir H. Haller's does not find her worse, and I sincerely rejoice that her last night has been so good. — This day's Report of Emma is still more favourable than yesterday's and I have great Pleasure in sending you the enclosed. — Accept my best thanks, my Dearest Mary, for your affectionate wishes upon this day & be assur'd of the Comfort which I have ever deriv'd from your warm Attachment and from that excellent Conduct which has so justly induc'd you to do. Pray give my kind to dear Amelia & tell her that I shall certainly not fail to be with her on Wednesday Evening, and that I am looking forward with great Impatience to that Moment.

Believe me to be
Signed
George
