

Sun. Nov. 18 1810

My dear Mr. Butler

I trouble you with these few lines to say that my father's Judge will of course not be shut up in the Establishment but he will visit you more frequently & attend & arranged all your dear Aunt's affairs, but as soon as you can conveniently come down and get the things done ~~there~~ we shall be much obliged to you for the King your orders to Brown some days before his death

that as soon as the court
 took place the House was
 to be shut up. I have begged
 Brown to tell you how
 he requires at present
 to leave things as they
 are which of course he
 sees the necessity of in
 opinion it would be very
 improper to leave her things
 in an empty House

I saw Peggy yesterday and
 she has agreed to go with
 Mary Anne to Bristol &
 if you have no objection

Sun. Nov. 18 1810

I should write after all is done
at Augustus Lodge that Popple
should come to the Castle for a
few days to put all dry things
to rights & then we could
go off to Larne with the heavy
baggage & from thence they
could proceed on their
journey — the delay of a few
days at the Queen's House
can be of no very material
consequence as they have
not much to do as the
chief things I believe are
clothes & some furniture —
However if you must hurry

Annals & History un ambledly
after all is permitted at the
of course they should you
only then arrange with
Guthrie Street History and
return to London for
two or three days just
to make sure everything
at the Castle is in order
not to go to London
Thank God the King is better
to day & I hope by all his
Doctors says the fever is
very much less to day than
yesterday & the day before
I believe is better - As to his

only some but so on as the
reference in my first and
subsequent letters therefore
I am sorry still hope's
me to look my name —
The rest of the business
we will & give to be given
I was very sorry to hear
I don't say you were well
yesterday — God bless you
& please me much
My Mary

Sunday Jan^r the 18th
