

Wm 1812

(Fri.)

Feb. 19 [1813]

My dear Mother  
The King upon the whole has had a great day rather high at dinner time, but it is all gone off this evening - The Queen is better than yesterday but requires care as the complaint in the bowels is nothing like gone - She got up about two o'clock but was unable to leave her dressing room, she dined alone as the result of the dinner made her quite sick, & though she did eat a little, yet it went much against her & she certainly is much lower than she was at the attack but still I think she is better

Thank yesterday's <sup>1st</sup> performance  
much to see her to know  
& Mr Henry has promised to  
come down Sunday. which  
is a great relief to us as  
she certainly is not well  
enough to be left a day  
without seeing a play.

Yours

July 19<sup>th</sup> 17
