(of Addl MSS Geo II / 240)

My dearest Brother  
The King has passed a  
delicate day but in good humor  
Sophy has her left side & had  
more fever & you will understand  
me when I say this is a sad house  
to kill in, as after a time  
a long illness is her long one  
considered as it ought to be  
always I have anticipated this more  
before in my life & it is  
very difficult to know what  
to do - your letter to have  
amused me very much  
this morning, but though  
I am much flattered at

Your kind offer towards my  
unfortunate tree as it has  
nearly quite well but being  
reserve your proposal for  
a more delicate & more  
Luscious fruit
