

Aug. 5 [1814]

My dear Brother - I am happy to say
that Dr Bullie sends the letter
looking better than when
he was in last & his pulse
quicker - He attacks in the
stomach he calls nothing
but burns & of his experience
never in the two or three
years at Hester in his chest
as the complaints of some
kind at times but matters
surprisingly free & easy - As to
Joseph who certainly is better
though much fatigued
on the sitting up to sleep &
cheerfully much - Nothing
open & I was ready
against the 5th day

Prince of Wales

to

The Prince Regent
