

1815

Dear Madam

My dear Madam

I am happy to say  
 that I really think I have in  
 receiving this letter & the  
 account you have after me of  
 your situation, which I  
 hope is a proof of your  
 strength - The King is great  
 & compared to the Queen's  
 cold is better - The Queen  
 had some hard Rheumatism  
 to day when she says that  
 she had so much  
 pain in her side that

she has been obliged to feel  
in further which have  
returned her - I have had a  
letter from David this  
evening dated April 11<sup>th</sup>  
in which he says the  
short game for the  
continent requires the best  
war is quite successful,  
at present the first day  
that the report of a fight  
was was likely to break out  
8000 young men of all  
ranks turned out & wrote  
their names down as  
Volunteers - David tells me  
he is decided not to come

Sancti Mary  
to  
The Prince Regent

April 20<sup>th</sup>
