

7 End of 1814  
 (when Geo. & Henry Fitz Clarence  
 were "furnished" to India)

My dear Mother

The Queen's cold is  
 better though she still coughs  
 & I hope is not worse than  
 yesterday but still fighting  
 against a fever. She has  
 now got a cold in her head  
 but nothing more ill & had  
 beautiful spirit & composed  
 I have had letters from  
 Grand & Adolphus - Grand  
 has been very ill with  
 an inflammation in his  
 lungs but now better  
 when he writes to show  
 Golly has taken well but

how well he understands me &  
letter he received from  
Sally Johnson which  
also tells her how I should  
in much credit that he  
hopes we to let you see  
as it certainly was and  
note with the copy which  
it was could full with  
your hands, & will  
prove that the Girl  
really thinks deeply  
as she wept in the  
subject of her Brothers  
& her great trouble to me

end missing
