

Oct. 12 [1815]

My dear Brother

The King was talked  
rather more to day, but I do not  
about look upon it as any  
thing of any consequence -  
Sophie was seized a terrible  
day & several weeks confined  
from having near Parkinson  
who finds her teeth in a  
better state than she  
expected & that having  
the King seen her of her  
teeth that she looked upon

as good -  
out of the  
12

Yours  
Wm Pitt
