

Bayswater Park

Sept^r the 18

My dearest Mother

I will not delay
one moment longer expressing
my heart felt joy at your
most kind visit in London
& to hope you was not too
warm for coming to see me
I got no cold - The Duke as well
as myself are truly sensible
of your great kindness about
the House at Bayswater and
I trust you are convinced
my affection for you is such
that I shall ever feel

grateful for the kindness I have
 ever experienced from you from
 the letter of very kind &
 inquire for your kind of your
 affair for me, but it is always
 gratifying to be informed &
 noticed as I have been by
 your very dear friend Butler
 & therefore very kind
 is necessary for business
 but above from you
 & from your own letter
in hand - I feel very grateful

in such safe hands, that
 I shall say no more on the
 subject than to express your
 that has our small the
 addition to this. I am, and
 be a great relief to my
 mind as it were; and
sorry the defunct
 I have in offering a bid
 to any of my own family
 & all I would to avoid
 the possibility of an other
 your such defunct
 being put in the way—

With any hope I may see you
soon again I remain

Yours truly
Gustaf Moberg
