My dear Brother

I will not delay an
 other day recalling myself
 to your memory and saying
 that I rejoice to send you
 Doubtless you really are better
 far more to the point
 and off my mind
 considering that we
 need to see two people
 completely engaged
 with each other, but
 anxious to be heard & do
 all they could to make

I go off agreeably I was
 very happy to see little
 in such my good looks
 & about & offer to walk
 a great deal, I only wish
 she were but soon do
 it time as after as long
 a confinement in the
 house the change had
 to my great - The house
 is so lighted and the
 place beautiful -
 I shall think the suit
 of his they are true
 bedding can not hit I

with it every with all
my heart - I had little
in her conversation with
her in any subject but
as she really appears
to me at this moment
to have her eyes on things
but for the P. of the
she is much in the
some state - I had
staid with us for
there in the House
having the G. of York one
day - the D. of Cornwall
had come in which
certainly is well with

knowing & my kind of love
to read it - since we
return the matter has
been dropped & to stop it
is quite better -
I had the happiness of seeing
Mr L & my sisters at St
Buckley on Friday all
looking well & the
accounts of my lady to love
Mr Duke notes a letter to
work to by he would
come our own money
to Progol but he is not
returned to the General
