Dear Mr. W. W. W.  
 My kind thanks  
 will be very to have  
 I write from my  
 friends having been  
 confined for some  
 days with a very  
 bad cold & have  
 my feet put in  
 the very spot that  
 caused me so much  
 suffering two years  
 ago. By not  
 attempting to

(4 Jan 27 1814)

fought against it  
& every way we  
- immediately I think  
the outcome of the  
attack will be  
kept off but it  
is so small & so  
inclined to inflame  
that I am obliged to  
warn you very  
much all day -  
It is most important

to be confirmed from  
time but I am sure  
on all hands to  
me & I am sure  
I give them no  
more trouble -  
I trust I am happy  
Holford who is expected  
to remain will  
set me up again  
I believe you are quite  
well & will have  
health & strength  
to round up all the

Stennis & Shorncliffe  
Proceedings going  
on in a defensive  
part of England -  
It is enough to make  
me blush & still  
more generally when  
have all the  
& undeviating  
courses in your  
shoulders - I thought  
that my conduct  
would be very  
different & generous &  
of the old but

about ourselves & do  
our duty in so far  
& good a cause -  
we shall matter  
the storm God  
Bless you & thrive  
we for a reason  
we very much on  
off very much  
from heart attached  
& devoted of future  
Blessing
