

For you I should think that I can
 give you I take care my part
 part to thank you for your
 my kind letter & for having
 executed my commission
 to perfection & I take the liberty
 of enclosing the same
 with the Bill which I hope
 you will find perfectly
 correct. In the 2^d place I am
 anxious to have from you
 your opinion after two days
 of fatigue must surely do
 I hope you may be able to
 send me a good account
 of that you are in as soon
 the more for having
 returned in two weeks
 and days — It is quite

Acc.

impossible to describe how
 my heart I felt at meeting lady
 Anne again & I was then
 so completely over come
 that my own powers / were
 being my strong / made
 it quite impossible for me
 to venture to say all I felt
 on all my heart felt
 I hope when we meet again
 I shall be able to talk over
 the things with the more
 ease & had I not to be
 in had every conversation
 with her I could not have
 believed as ill as I actually
 to see her I had as to her
 I had one in volume
 all the subjects I know

an offer for our family / and
 have made her suggestions
 to be made about - and really
 my dear had my spirits are
 so completely / broken when
 I feel I am to see an old
 friend that I have and
 my service all over wrong
 that I can not describe
 what it is to see - I hope
 as I see more people &
 go out more I shall get
 the better of this - but you
 my dear have been lately
 Anne & told her I was glad
 to see her looking so well
 We found on our return to
 London August the letter I felt
 much as usual and
 we about the company &
 spent a happy afternoon

Ge

I never felt any thing
like this cold & thought it had
enough of the Queen's disease
but it is terrible some at
London - What a lot I have
troubled you with & I feel
I ought to take my leave
but not before I beg you
to believe me your obedient
servant

Wm Pitt

Dec^r the 10th —

Found your return on the 10th
