

[1817]

Bayswater Park Dec<sup>r</sup> 3 -

My dear Brother I hope you will  
pardon me for troubling you  
on a subject that interest the  
Duke & my comfort very  
materially, & after all your  
kindness on the subject last  
year I trust I may be allowed  
to recall to your memory  
the plan you arranged  
formerly for adding on to  
Bayswater Park House. It is  
quite impossible to tell you

the sort of inconveniences we are  
 obliged to submit to & to put  
 up with in regard to rooms  
 & sitting rooms - The heavy  
 rain we have had the last  
 year have injured part of  
 the building to that degree  
 that now it will require  
 the repairs that some  
 alterations may be made  
 to the house - The Duke  
 ought to apply for the  
 necessary repairs to keep them

[1817]

part of the Duke, but to be  
but not making to put  
Government to any unnecessary  
expense & trusting that you  
will have the kindness to  
show to Lord Liverpool and  
represent our real situation  
The Duke will make an  
application - As there the  
whole thing could be done  
at once - I venture to write  
the Duke that in case  
you could attend to my  
request something might

to have only the Spring that  
might make us to be  
more comfortable by next  
Summer. I am the Duke  
Apprentice & mine house  
is comfortable. People who  
don't know the House  
say with the color  
that it is a ~~large~~ House  
and the fact is having the  
own rooms there is but  
another place in the House  
fit to be seen & these  
Gentlemen who belong to the

Duke are lodged in the garret & as  
nothing but the number of years they  
have been attached to the Duke  
could make them put up with  
being placed among the servants.  
The only apprehension that can  
be called to mind is the one  
of expense in habits which is  
with us of the sleeping room  
of that apartment is the  
same that has been so  
injured by the late minor  
In short I can not take up  
your time or trouble you

with the most delicate and  
 are put to, and I shall say  
 much of the same as in  
 almost the & properly referred  
 of no child gaps as complete  
 summer in it as it does  
 not hold only the family  
 & even the necessary things  
 that are required about the  
 kitchen & that are absolutely  
 necessary for the common  
 convenience of a family  
 are not to be found in

as on this point at this moment the  
Plan you proposed last year  
would just require no all the  
comforts & of you would therefore  
have the business to see  
what you can do with  
the hospital & would add  
an other obligation to them  
being I sincerely feel highly  
indebted to you - We are to  
go to Iowa for the winter the  
14 or 15 of Jan<sup>y</sup> therefore if it  
was possible for you to  
make some arrangement  
in the matter with the

surprised & it might seem more  
than years & the House being  
empty at least they might  
propose to do something -  
I make no excuse for the  
length of this letter as I  
feel certain your opinion  
of handwriting was not  
such towards me that  
you know me so well  
that I need not prove the  
value of it and not really  
necessary for common comfort
