Gloucester House

Feb 7th 1818.

My dear Mr. Butler - I have felt
 so dear what your kind
 has been suffering for the
 last week that I could not
 write you with one of my
 words until I could get
 my own mind a little
 more composed on a
 subject that the more
 I think of you, due to
 the heart - I last night

received letters from the Queen
 full of your letters full of
 all your kindness to them
 The Queen's affection is
 for I make use of her
 own words "The Princess
 consort has been most
 anxious to know every
 & sister & he has wished
 to appear very things
much as he could"
 I had heard all that

[1818]

traced at Windsor Sunday
on your step and conversation
from I understand who kindly
came to me yesterday
morning knowing how
unpleasant I was for any
particulars - which may
may this cool bearing
and you have the
satisfaction of feeling
you have done your
Duty by all parties

I should trust thankfully &
kindly & just like your
dear heart which is all
affair for us all -

I must say your kind
feelings in a best
work trusting and
beautiful situation.

I am gladly with you
in the same
unfortunate situation
to bring you into -
& when I reflect the
manner the whole
has been covered over

it really grieves to say that
it is so well known to the
best of our & heaven's good
the many best with
consider it - but what
unpleasant & unequalled
friends have unfortunate
Horn has been - as
you will be coming
to some time I hope that
you will allow me
to come & see you
as soon as possible after

your arrival as we can
 then talk at all once
 & I long to see you again
 But I will not end this
 without saying that
 I feel interfered by
 several matters that
 all confound us and
 are end I know the
 Queen & Her Grace & therefore
 in that point of view
 I say they are better

was for all with a night
cold & might have been
returned to London & I
was for out of the house
but one morning to take
a walk in the garden
from garden -
