Your kind letter deserves my warmest
 thanks my own dear & most kind Mother
 & I hope nothing will prevent our having
 the happiness & pleasure of seeing you
 to morrow - I assure you my sister is
 tolerable & I am quite well - I have
 little else to say but that my heart
 is very full & my eyes inclined to be
 much the same - Your kindest love
 is deeply impressed on my heart &
 let me take this opportunity of
 assuring you the comfort & happiness
 I have experienced in enjoying a visit
 of your dear society this summer
 & would as I could be with you
 & know as far beyond what I can
 find words to express - This long
 protracted illness has made me
 of little value your love & care
 every hour - My love is watching
 out these words of comfort & cheer
 I hope to stay & listen to your
 & to be able to receive fully, but

I from my little of every thing has
been done - My notes to her
immediately in receiving your order
& I enclose her order as soon to
her - I trust you are quite
well & please me ever for an
ever yours
