Dec & the 1st this -

My dear Brother Your kind
letter this moment received
discovers by my warmest
thanks - my surprise of
which has gone deep
into my heart & most
thankfull shall I be for
so minutes a quarter of
an hour or any length
of conversation on Thursday
I have already told Augustus
I would to speak to
you on my object very

to be use & comfort at Windsor
& to allow my family a bit
until I understand what
the value was for Windsor
I felt I did not know what
course to give or what
to say to both my father
& my mother as often
asking my opinion
I feel I can give some
until I clearly understand
the right situation of
things - this being the
case after you have

...been acquainted I shall propose
...your coming to my room
...all has gone off quietly
... & respectably at the same
...I rejoice to find you are better
... & pray God you may get
... strength to overcome ^{weakness}
... & that the meeting with
... your lady & the first
... finding yourself at the
... Castle may not be too
... much for you I rejoice
... your recovery will be at
... Winter when I hope

you will consult what
I usually before you go to
Brighton - with every
feeling of affection and
warm attachment I have
and yours
