

[1820]

Bay Hill Park
Jan 16 -

I hope my blind Brother is enjoying
himself at Brighton and
that this visit to me
old mother has in no
way affected your health
I shall give what I can
now to you like a
lover I do fancy I see
you at dinner offering
the punch & brandy
all round the table
I see you calling for all
the friends & Acquaintances
like & very hearty
with the dearest with the

recollections of the happy days
I passed under your roof -
I call the kindness I received
from all there when
staying to your society
I have never been out of
the House since I wrote
last but to go to Windsor
to see my father when
I found well & in the
whole the account
of our dear King and
retire - I only I have
heard that Edmund is
very seriously ill with

[1820]

a few more de Vates has
 write to explain to my
 how can will be is and
 I have already write to
 inquire after business
 & I hope you will do
 the same, it can be
 no difference as to your
 feelings concerning the
 Publication of a
 new opinion as to the
 propriety of such
 a Publication but I
 have your good heart
 so well I am sure
 the document give

never be well you will
make Brompton write
a line to my wife after
noon - It may be either
but a violent cold, but
should it be more
serious it will
be a catastrophe to you
you have done the
best things by leaving
Belong returned from
I saw yesterday & brought
not one word of news
but that subscription
our young one from
the house by from it
is much for good
