

[1820]

Windsor Castle Feb 18

I must write you some lines to
 say my dear Mother
 to express my joy at your
 approaching recovery - It is
 impossible to describe the sort
 of anxiety we have all
 suffered about you & thank
 God all reason for ^{anxiety}
 is over & I trust God we shall
 soon see you quite restored
 to health - I have been
 called away for two
 days from Windsor &

The Duke has not been well
 with a cold, but I left him
 quite well except to say
 this will account for
 my not having thought
 for B. I am glad for his
 two last letters - I found
 my sister much better
 great exertions to
 get these things all
 packed up to leave the
 1st the day after
 the last Justice was
 performed - I feel quite

[1820]

ee satisfied that clear by day
 can wonderful strength of sound
 will with her to give
 strength all their way will
 for the remembrance of sound
 the effect it may have
 on her health by the
 strength as great that
 to get her to some view
 for things as soon as possible
 she being then done
 and alone at this
 moment is very unlucky
 I do all I can to keep
 up before them but
 it is a disappointment

As soon as I came to I
I hope I may be allowed
to pay my duty & stay
to see you & make ever
first meeting ever
our Gentlest & best
most Dutiful subjects
Mary
