

[1820]

Feb 28 Gloucester
My dear Mother I must first reply
this morning that you go to
Brighton to see Mrs & I believe
found from Mr Henry Hallford
when I was at Cambridge
Home that you were expecting
the lady therefore I did
not fly down to visit
Home to say God bless
you / fearing I might be
in the way / but I can not
let you leave home without

explaining this as long
short I had me to call
upon you & try for me
look before you send
to Brighton - I will not
take up your time
longer than to say that
you will take care
not to get any cold
(during this winter season)
matter) & that you will
allow Miss Blomfield to
write me a line to try

Since you get down - I have
had the same blood in
purpose & agreement; what you
we will do from Adolphus
& little hugging I will write
every day until you
are quite well - However
keep you & guard & protect
you & believe me ever

Yours truly
Wm Murray
