

[1820]

Thank the dear General for
his kind & most kind letter
your kind offer of letters was in the
first place received with delight &
gratitude & according to your
orders sent into the flames with
out loss of time - I had feared from
yourself that you really were
not the worse for the cold
from the Brighton was a relief
to my mind as soon I
started the cold would go
away the day you left
London - I trust to hear that
your sleep & appetite are
returned for until then
you will not regain strength

2 of I felt some Public business, did
not run after a pump where
there be is - I should say after
such an illness His Majesty
is my right to go from it
but I fear no place makes
much difference in that
high station - but my constant
business are that I have
never parted you & that
all under your Government
may prosper - I ought to
explain why I did not
write yesterday - the fact is
the Duke was here all for
some days trying to pay

... suggests one of them but cold &
nally was so much opposed
... I was glad that I was not
... to send for Belle
... the moment he saw
... had been most copiously
... This kept me much
... of the day in his
... & I was too late for
... Part - he is better for the
... but still very un-
... with the usual fever -
... to reply her cold is better
... but she has had some
... state from of whom there
... last two days - the doctor
... her age low & Duty & is
... to know when get to
... without adding to you

ed) - You are most kind in
writing me to make me
of your party - You know
how I love you therefore
will have me released
say I am never so happy
as in your society, & the
thoughts are sent to my
soul as out of the quiver
I look forward to many
(I hope) in the course
of my life - but thank
all things in the world
that history or thought
in mine, I shall ever
remember with pleasure

all the business I performed
from the time I came
to stay in Waltham Mass
I got Mr. G. & from some
one of the Dunstable

James

I have computed the total
of the Waltham Mass
contribution at £1000 &
have signed in every respect
my property for the
situation
