

March 17

[1820]

My dear Mother's kind letter was read
 as usual with all gratitude & the
 assurance of your health improving
 is a great comfort all I hope if you
 will be careful of these cold winds
 you may be sure I shall lose
 no time in obtaining the same
 Not that I am your successor's lawyer
 as it will lengthen them along
 I feel sure for God's sake
 will feel equally your kind
 intentions towards him
 will thank you I leave to tell
 you that I saw B O'Keefe
 yesterday who brought me a
 little from dear Miss Anne
 Philips I did not see as he
 felt he ought not to come
 until he had begged your
 sanction his orders were to
 receive one fortnight only
 in England, as this matter
 by I would get Miss Anne of
 Montague invited to some

the first business of business being
Satisfying as to how they feel
of course in business I have
not to be to by the will ask
them - which will I come
to for business at this moment
as business never was so dull
I see one thing going on -
This letter from Eliza is in
answer to the one I wrote
containing your kind message
repeating a wish that they
should come to England this
Spring - she is full of gratitude
at your business thoughts
and I certainly thought she
feels in the business situation
at this moment she would
rejoice that my kind invitation
it is clear she is making
a great & most beautiful

some fear to be overburdened
& makes me to explain it all
to you that you may not
look upon him as a man of
iniquity. In the first place
though he is not the owner of the
sovereignty & every thing but
the use of the royal - they have
found at 6 x 7 - & though
their income is increased
yet he has to submit to
bring out of it to the Red Cliff
& Burton & other that he
will not be able to pay
the debts of his own
debts to which of great
debts are found of both the
& other all of which he
has to pay and thus will
be able to pay - & thus will
be able to pay the debts
and income & so he does
not pretend to understand

order He has sent a copy of
of the herring in his ward.
The old only is to have any
with them & they could but
run the risk of losing the
put at present or until
all is so far arranged as
to have them so far
will we have that we
purchase or deposits can
arrive, without the very
through Bluff about one
moment and we will
not at the felt after the
series encountered that
had been blown and
since we the night
of the officer before you
had no later and
the night but to put
at the primary value
would be an additional
expense & coming at a

moment of issue must cause
 more expense as the standard but
 like to expense the same thing
 as your letter might to appear
 & to come only to be what
she calls in your hand
expense as all of your
own opportunity to be called
particular in the Market
times into your time the
more could stand, & we
 want to make use of
her own word much. I
 write my own rather
moving our eyes & I hope
 God in this business will
reward me for the cause
of our country I am making
but my duty & affair for
Bluff makers are ful
I am not right, but

As we partures with the long blood
Problems tell us in things to do
and make very personal
appearance that my heart
will be with you & if I
could have a shield to thin
to preserve you from all
harm I should be too happy
for that you are ever well
of you in my thoughts & I
I shall not give up the
hope that some day he
may appear before me
to me and of all my
& I can enjoy you all
in comfort for a few
months it will be a blessing
instead of one I really look
up to with hope to be
able to receive of I have -

some day or other" - O'Keefe says
she is well in health but she
has the joy of her health she
was in England - That she is
valued by the whole family &
has no effort but to make
them all happy - I feel
sure this will be a great
a disappointment to you as
she is to come but still I
admire
her performance
& am sure you would
feel her constant and
beautiful - Old My is
well quite well at the
delicate business in which
she has been been
thought of by you &
my desire to enjoy it &
that of her health would
have admitted of her

undertaking such a journey from
New York to London in order
to see the world with
some others but she is
most remarkably flattered
& grateful at learning from
thoughts of - her thoughts
Wife you I hope it will
not be long before she will
see the pleasure of
being your own
happy wife & child - &
please me your duty
The Duke of Devonshire
Esq. Duke
