Implements Paper -

I have the happiness of informing
 you that Annals has been promised
 with Beavers consent was carried
 from her own room into a bathing
 Machine that of her the need of
 Wheel continued to be placed
 just opposite her head and was
 drawn out into the Sea as if
 she was going to bathe. It had
 had the arrangement of making
 the inside comfortable & rather
 low as usual as well - It is the
 Machine they call Queens by
 taking off the side benches
 it is fitted with to place one of
 the benches hanging to the back
 on one side which Annals
 lay upon & gave place for two
 little small chairs which lady
 George & one not upon which sat

keep the fire from her first intended
 a green canvas window that
 takes in & off to be placed before
 the door of the machine toward
 the sea so that when closed
 in this window draws up &
 down just as is convenient
 in pleasure to land as
 that it keeps off all draft &
 the great glare of the sea
 We remained near a quarter
 of an hour ~~at anchor~~ she was
 rather fast as the distance
 of the sea rather affected
 her in consequence we
 returned home & trust you
 than we shall see others
 day - I thought of every
 convenience were contained in
 small table for her therefore
 I flatter myself of this could
 matter costs she was
 very well in health.

sea air without any fatigue
& scuttles she is stronger every
common letter than a British
Carrage - This machine
sent me in record from
dear Mr. Pater, & from it
I wish I could send you
any defence as to the service
in her side which certainly
has been increased by the
journey & which some degree of
pain brought me from the
fatigue helps to ^{now} ~~remember~~ ~~behold~~
more since we left London
As she has never been out of the
toll to day & incident has hardly
been out of her but we can be
judge of what effort this
could be many times in
notwithstanding but a few days
going out constantly every
course a great advantage for the
letter as she has by now
means recovered the journey
got it up in some day still
before any decided recovery

can be formed in any other than
It appears to me as if Beavers
unwisely understood the complaint
in my attention & when some
one gets over his dreadful
sickness he certainly talks
most accurately & very well
comfortably as to his recovery
with ease, but calls her "The
Not House Plant" — & Gotta
had some difficulty in passing
an eye and when I would
know if it he sent her over
this evening which we
are to keep as long as in
consequence — He has not seen
the whole yet as they are
only just come into the
west of the world — The German
Inscriptions & had I had better
have all called to enquire
Yesterday I thought I would
better all day. There I have
seen her name in answer
at this place. I was therefore
disappointed this evening to

Dear Mr. Good had had some independent
 weight which of course would have
 been required to long - I speak perfectly
 assured to know more as far
 as not yet returned your very kind
 grateful thanks for your kind
 letter I received this day ago
 deeply as I feel every word
 contained in it & thank God
 our joint Progress may be
 proved as to the restoration of
 dear Amelia's health -
 I have always forgot to mention
 in any of my letters what a
 very good effect your picture
 had on me in the Park
 in Horse Park - Sir & I went
 next to see it the other day
 & stayed in Horse Park the
 Park to measure the
 size of the Hall which
 in length measures
 fourteen yards - & of course
 the rest is all in proportion
 by Girth says nothing but a

I am in a great measure convinced
would have changed a Horse with
that of the — I am happy to add
some more than the above
Annie has made a better
decision than she has
done since we arrived
at this place — I have
the pleasure of mentioning
your dutiful & affec
tionate
Mary

Sept 6

I am most happy to write to
my dear Annie since there
is not a word a great deal
of good quiet sleep — I hope
before me she has left
to day —
