

July 12 9.18.21

Windsor July  
12-

I will not leave this  
dearest Mother with  
out sending you  
a few lines just to  
tell you that I  
shall ever remember  
with delight the  
moments in which  
I heard of you  
and the work of  
the glorious year  
in the Great Hall

July 12 9. 1821

at Iron Colledge it  
 was the most gratifying  
 thing possible and  
 to assure you the  
 manner it was  
 received & the things  
 you brought there  
 heard at Jostons  
 Home & tested  
 at least a quarter  
 of an hour - and  
 the young men  
 apt in the little

the some thing  
 happened the usual  
 along at the dinner  
 given by the University  
 for next to look  
 Gray books was  
 delightful it is  
 a very important  
 place & had Gray books  
 and the thing  
 must be understood  
 this twenty at  
 this place has  
 given it will

The House must  
comfortable & some  
good pictures in  
it the place a  
most enjoyable  
one & had had with  
two more some  
fine ones but  
I think too old  
the house in  
the garden  
a house to perfect  
I think you see  
only. Best brought  
I think must be

will tell you  
in kind plenty of  
wearing yesterday  
& it is to be kept  
in on the letter  
for it otherwise  
it is really thinner  
away - I was  
delighted to hear  
from lady here -  
that you looked  
well & was very  
cheerful. I am by  
brightest good night

We should have  
some pretty & I  
hope to see you  
Saturday
