

[1826]

June the 27<sup>th</sup> (4)

Many thanks for your kind  
letter & I hope by this time  
you have received a letter  
from my father performing  
the same also as to Anne  
your sister - she is looking  
forward to this little trip  
with great delight & I do  
assure you I am doing  
so far well, as I am certain  
she will enjoy herself  
much - your Hospitality & kind  
affection - this matter must  
make you by no means quite  
suspicious - the heart of  
London is fixed, which  
I am desirous & I really

about of the least at first of your  
will rather at an assembly of  
why you believe & I believe  
I begin to begin to find myself  
under the shade of being  
now times at 10 PM, but I  
about time I came before the  
20 July anniversary to  
see dear Frederick on long  
as I am - the year in the  
set alarm for a few days  
under necessity on much  
to for a length of time  
as after our illness has  
been so neglected, it  
will require great care  
& quiet before we can  
be restored to health  
The great object is that

all the business have agreed  
& that has more sensible  
of just as necessary & substantive  
from judging have engaged  
me to any extent  
He can not be better than  
at our Government & I believe  
see this matter it is  
the only cool place I have  
been in - through the  
I am done requests holding  
work - in the heart of the  
day - beats continues  
the rope - I never saw  
any thing like it &  
of it was not caused to  
the effect it is I should  
say a very sheepfull pretty  
game in a large country

as it breaks all former and  
entirely the whole room  
But however is nearly quite  
empty & there are  
in I am not all  
any in the water - for  
there is little or nothing  
going on - but I have  
hope in less than a few  
weeks many better by all  
means from City General  
Hospital near the flower  
of street place - very kind  
love to City General Hospital  
and yours sincerely  
P. M. D.
