

Nov. 26th 1829

My dear Mr. Williams
My Office but Duty to
the dear King & I
hope Mr. Keppel will
& that he will be
very careful of
all these Fundamental
matters - I had
letters from Warrington
about the 20th
when John Storer
was confined to
his bed with a
bad fever in
his house - I hope

Nov. 26th 1829

all is going on
towards recovery
& that lady's progress
is better.

Sunday
The King
to let me
know if he can
or not receive
me - I wish so
I always delight
me to receive him
a visit don't let

me read morning
I know what illness
is & the extent
that is necessary
after so protracted
an illness, so that
I was here
Therefore of my
coming to the
Judge is in my
way to be a game
to him in any
of them - honestly

say so - You & I
can take it all
as I know full well
of the ease with
which ^{will do} ~~will do~~
me the matter -
so - all I want
is my dear son
William that
he should not
playe or worry
himself about me
I find all my
well & comfortable
in this house
and can see

yesterday to me and
 he said the D^r was
 not well & doubted
 if she could dine
 at Burying to day
 but he came as
 usual yet —
