

May 22 9

Now, regarding your use a little
concerned the other day
I considered me to send
to you when I had made
out what he wanted on
the subject - I thought should
take it as a particular
form of you could make
it convenient to call upon
me to discuss many
things the same of it &
we should - should later

in the day to some amount
any time after 4 o'clock -
but if I could save from the
trouble of coming to G.H. I
could come down to C.H.
I have 12th and I perhaps see
you before I read your report
to the King, but your
kindness and answer I
shall be glad to receive
