My Dearest Mary,

I have received your kind letter of yesterday and cannot delay thanking you for your continued Attention in communicating to me all that regards the State of dear America in whose Progress I feel so deeply interested. It was impossible not to apprehend that she would suffer very much from the first attempt to go out in the night, nor am I surpris'd that the Motion should have for the moment increased the Pain in her Side, and produced faintings, but as Doctor Bope attached so much Importance to the Trial, I joyed that it has been made, and I trust that the general Effects of it & of a Repetition of these Experiments will answer his Expectations & realize our anxious hope. I am very glad that you, my Dearest Mary, suffered no Inconvenience from the Motion of the Ship &

I remain ever &c

(Signed) George R.
