

Oct 2<sup>nd</sup> 1809

My dear Brother

As I wrote you would  
 yesterday Amelia had been dead  
 the day before & was more  
 than usually unwell I take  
 up my pen again to day to say  
 you was well satisfied with  
 the discharge produced by the  
 Pear & that she passed a  
 very much better day - than  
 the day before - I have promised  
 me to call on you when  
 he goes to town when I flatter  
 myself you will speak out  
 strongly all your feel about  
 her - as he desires me not to  
 make any remarks to you  
 on the subject of her return  
home, being unwell  
 you should have in view

needed previous papers  
your letter and now to know  
all I need on the subject  
in my letter to you  
Yesterday - I am certain  
the side is wrong & believe  
if your prof. Pope on the  
subject he will tell you  
so & in one respect is  
the letter but the couple  
& the smallest cold air  
brings it on and voluntarily  
God bless you & believe me  
Yours truly  
Wm. M. M.
