

Brinley May

October 4. 1809.

Oct 4<sup>th</sup> 1809<sup>th</sup> Weymouth

My dear Mr. Pope I am happy to be able to say  
that dear Anne's paper a much more  
comfortable day yesterday than the day  
before & I hope is satisfied the Meeting  
has returned here very much — The Tide  
is just the same & as she has written  
her own account that I hope may  
be of use to you & the same as well  
as I in I believe I shall not enter  
into particulars in this letter  
as it is evident that I can say no  
more than that I believe the same  
you talk over her complaints with the  
Pope the more you will find  
her statement just

The Paper was written by herself &  
then she showed it to Pope  
who says he might have it  
to give Sir J. Lubbock

She certainly has had a better night  
but complains of her feet being  
more tender today as the period  
is very cold — I had the pleasure  
of seeing Miss Set yesterday the  
Chancellor's Daughter who was  
most anxious to see me  
after your — I remain your  
affectionate Daughter

Mary
