My Dearest Mary,

Although Your kind Letter of Yesterday contains an Account somewhat more satisfactory of poor Amelia I am much concern'd to find that the Pox still hangs upon her & that there is no Abatement of the Pox in the Side. As the weather has been more moderate these last two or three days I hope she may not have been so much affected by it.

Believe me ever

My Dearest Mary, &c

Your most affec^{to} Father
