Windsor Castle October 17.
 1809

My Dearest Mary,

I have to thank you for the kind letter which Edward brought me from you, and was very glad to hear from it, that dear Amelia had borne the birthing in the carriage better than you expected. The accounts received this morning are also more satisfactory than they have been of late, & the continuance of the South Sea wind leads me to hope that she will be able to persevere in going out.

Believe me &c.

signed

George A.
