

My dear Mr Adams
 Many thanks for your
 last kind letter & for some news
 from your school and as usual
 much liked by every body - no you
 really this last week has been very
 unpropitious - no school - no
 interruptions - very little sleep at
 night & a bad cold in the head
 obliged me to keep my bed
 all day yesterday & take James's
 Powder - the head is just in
 the same deplorable state & yet
 the King gives great proofs of
 memory at times - John Bull's
 thanks more & more of the case
 are you not shocked at all the
 horrors going on in France
 it really makes my blood
 run cold - I got my walk every
 day but with the lameness all the
 cold weather I hope you

been as yet escaped one of your
laughs - Pray could you
send us some sea glass or
shell for I don't remember
to mention the work the
labor which comes out of
your garden much
letter than any that
we have & pray have
me I to read back all
your line boxes while
the course is -

 Royal power — to the very
 good young man —
 God bless you I rejoice
 Iulford is so much better
 than you intended
 going to see the King
 before they return to
