My dear Mr Adams -

I am quite delighted
 to find you really are going
 to me & I hope will
 trust the change of air
 will do your spirits good
 I am sure they will be
 happy to receive you -
 Pray also tell your
 & me you this summer
 I hope not because there
 you will be obliged to come
 up about winter & make
 sure a good & really I
 expect you to come & see
me often - All has
 gone on quietly ever since
 I wrote last the error of
 the land measure as

strong as ever, but the
 business keeps you
 I should not have written
 to you so long, but as
 I ever get a frank I can
 not refuse to reply to the
 pleasure of remembering
 a few lines —

Byrdy is gone to Rome to stay with
 Gully as far as Rome is going
 to be married which is a great
 step to her Gully who
 perfectly understands her & looks
 upon her as her child, she
 really seems to be a real life to Gully
 as she is all attention to her
 We are both very much as to
 just now as the Prince of Wales
 after having told her daughter was

to go
 her
 her
 more
 & her
 she &
 in the
 to the
 of
 Pres
 sure
 may
 sleep
 into
 at the
 to be
 paper
 just

to go up to I am every so long to see
 how to proceed the best way of
 an answer to the Duke's letter
 must necessarily be Saturday
 & keep the day with the less
 the Prince keeps his appointment
 in the same lodge and according
 to the agreement where the
 Duke first left the Duke
 should she now make any
 sure there finally to go into
 any Duke that either of them
 sleep in, then puts in all
 into a great fuss - as on full
 at this moment it is my business
 to keep all as quiet as
 possible & get it is end of the
 question to keep this over
 unmentioned - what the Prince
 will do God knows, but you
 can not think how uneasy
 it makes us & how our affairs
 are less done very uncomely
 of the less done it but

of the one which is made the
same. A case in the interest
the Queen is in she could do
no other since there is no
the Prince the Ojo had heard
and he got very tired
under the Queen's care it was
impossible for her to leave
the Ojo being at London
I am writing this about what
the Prince you have heard
in the subject of the matter
without making any more
and I must say without entering
into any of the disputes I think
our country the best understood
thing that ever was - but of
course there is quite a goodly
number who I have told you to be
a fine girl but neglected to
a degree that is quite harmful
& I am I hope to find she has
not told her best. I will
send her to London
