1816

Dec 6 -

My dear Mrs Adams Amelia sends me
to thank you for the Sea Balm which
she is delighted with the thoughts
of having for dinner to day -
The Physicians meet again yesterday
& they say they are happy upon the
whole to give a more favorable
opinion of Mrs Royal's "Seizing"
at the same time add they
are still decided that there is
some deep seated source of
complaint which is situated
in the back part of the right
side - they make light of the
violent pains in the head
which to me are frightful
as for the last 10 days she has
not been able to read or admit

any light into the room. The person
on the side just the same -
The Plan is all changed again
as she is not to remain as much
as I'd and keep constant Pleas
on her side - I am very sorry
to find all your Grandchildren
have been unwell I hope by this
time they are all well again
When William comes to you
I suppose your House will
be quite full then every
Child has been having
with him - The account of
July had an letter & July 9
Murray returned to us yesterday
her Daughter Maria being
quite out of danger -

Our
ill
to
me
safe
& all
I
and
and
and
is to
I
and
the
I
let
and

Dear Gully has been dreadfully
 ill with an attack very like the
 Brothers Sir J. Lambourne appeared
 me yesterday she was even
 safe but required great care
 & attention she is not able to write
 herself yet as her hand is not
 well enough - but I think
 was expected but to have
 some days ago but had again
 in letter - Yours truly
 M. P.

Mrs Williams who is now
 sitting at the table by me
 seems to be much better
 I have had a cold but am
 better & really do take
 care of myself
