

Do.

Dec 17 1810

You may make your mind very  
 clear for Adams quite easy  
 about our dear Mary for she is  
 equal to all letters she has had  
 remarkable goodnight last  
 night & begins to feel herself  
 a little weak today which is  
 a strong proof that fever is  
 going off I hope she will be  
 able to be up for a short time  
 upon tomorrow - I desire  
 to say her dear will not  
 allow of her writing as yet  
 but as soon as she can you  
 shall be one of the first she  
 will write to —

The views from below are  
 thank God more comfortable  
 today tho there was little or  
 no sun - not a bowman hour  
 at most - yet it has been  
 quite steady & fine & all  
 agree there is certainly some  
good which just now is  
 particularly pleasant  
 God grant it may continue  
 & prevent mischief

All the rest well  
 God bless you my dear  
 Anne & ever yours
