I had not a minute to write you today  
 which must plead my excuse, I am  
 happy to say dear Mary is a  
 vast deal better, quite a differ-  
 ent creature today having had  
 an excellent night, the doctors  
 must thank you for all your  
 affectionate & judicious care  
 & nursing her, she has done every  
 thing she was desired & has  
 been rewarded by being so  
 much more comfortable  
 but you may believe much  
 of this tiresome complaint  
 was brought on by worry  
 & anxiety of mind —  
 This young lady will stay

up (as she did yesterday) the best  
part of the day - My Father  
and thank God a good night &  
so better than morning -  
God bless you remember to  
be around you - &

Believe me
