I have some good words in Johnsons, in Col
Perkins that will in every degree
convey to you my own sense & give you
the delight I feel at the thought of
seeing you all down down here -
Truly! if you could but know how
my joy when I received your kind
note, then indeed you would think
my words; I published with happiness
& have daily kind remembrance
on a line to inform you of it -
how long it is small letter, but to
have felt the death of his mother
very severely & altogether his being
killed it kind to see how he had
been very much, but thank God we
see in me in my own kind heart being
with me is a great delight to him;
he is indeed a perfect man, as to me
I am completely of the nothing
we know of his kindness, in
every way he has acted like the most
affectionate friend I could not to say more
he indeed was the very father he could
not do more than the best - Alas! it
cannot much mention they ever & I fear
I shall have a sad time with the B -
I have been in conversation with one of your
very particularly for th. & as I have not
many kind friends I do not feel as
if my own heart will do more justice in
wishing him well that I was myself.
