

I must be full a few moments as you have by your
 language the return for my very warm & grateful thanks for
 your note & for your kindness in so soon acquainting
 me of the safe delivery of our dear Mrs. Gage —
 I am with respect & remembrance to her in the subject than
 I should, but believe we are both now well & from
 the best of the service — whether we are well
 & well is sure the interest was & was I will be in for
 your my best & never forget the comfort and help:
 I had enjoy when I saw more of you — I
 have long known that I have every evening, every
 I should not who have missed the happiness I had
 experience when I was frequently indulged with help
 of kindness from you & by dear Mrs. Gage
 I have never to think we have been anything
 unkind of late, but if my heart was broken for
 and as I & I agree then in long letters to
 whatever they may feel toward me I should in
 return cannot the parents & themselves self feel
 happiness & comfort — had parent who may be in

wish and that this dear child very soon is put
a blessing to you in the fair person of Mr. Thomas
- Just Practically so I pray for your happiness &
long with a thousand affections like the day
your prayers have received I am sure that
you have a special interest with you for ever and live
with an amount of love - I think you for ever
kind letter: I trust I need not assure you that
what is referred in my heart is sound: I shall
therefore never concern what she related, but you
enquired to know it as I trust it is a sign of
your & happiness when we meet with it -
has been done besides sometimes very ill I think
she really suffers texture & with a degree of pain
not to be equalled. The same continues she has
a large blister on it is the first in another
- more - God bless her: the Angel is well in
health & that is my thing is you know to be
she will ever be your affection friend
