

they talked down poor George - I am so truly vexed to
 enquire at what I am told by ~~being~~ ~~that~~ ~~I~~
 cannot go to bed without thinking in and out of my head
 much I feel for you when I am sure with confidence to help
 from it - Ever since breakfast some early friend I know
 whose lady I believe was sent to her but I did not
 so her talk after dinner when indeed I am much
 alarmed at her agitation - why I think that is I
 will not say but it is some of you here a few have
 she indisputably says you are her perfect comfort
 - I have you a double long behind poor George that
 I feel it the more that trust in God that past
moment will soon be got over; you see we were
 one to be loved of & I think this is a
 proof of it - Princes says the L^d covered it to her
 this evening I she said not, besides in saying
 how much from her breakfast had been heard
 by her waspage - I am glad that if I believe
 the L^d to find upon us the person to write
 to you as her much kinder it would have
 been the best made one of our speaks if it was
 so necessary to show her of this comfort -
 I hope if you be more than you will with upon
 me though I am fully with your politeness and
 therefore if it will be your favour and not being
 one then as said I shall perfectly understand it -
 Ever since her she respects L^d being at the
 bottom of it; had some honour; it is very much
 if it is a - I think she will be pleased about

Have now received with 8. in bill I have
now fully open - God bless you my dear friend
I will be assured here to have George
and Robin are undoubtedly your affections and
attached friend

Yours
