I just got a message by George King about
how kind friend and as it has turned out I am
to be glad the same visit you promised me
is postponed as soon after the 2. I was in
for what I cannot tell you but she stood some
thing not knowing what to say and with me
I think would have sadly worried me - I met
the friend: Sunday for instance at one I hope
you will come to me, in the morning I think
I cannot be used for the weekend and after you
have read it I wish to know whether you
approve of my writing to George for I am here:
I did not making mistake & yet I had not to
say you have been kind if I was writing to you:
I fully into her feelings - I have said then "I
was a hurried yesterday I had not time to tell
you that the Dr. questioned me about how you
were all going on: to which I answered that you
spoke as being well satisfied with all: he asked
me how much best her time, I said I would
stand briefly with you & Mr. Allen and that he
then answered that besides you there has been great
part was in D. G. - he wanted to know how
much time by G. G. I said I believed she had
no objection to her but that of G. G. was her
friend: then the thing returned into and said he
thought you would have suffered a much from
her returning with G. G. probably that probably she

would I need working some friends amongst the ladies
and be assured if it was secured by the law
that by the law was there as it would cause an
inquiry & be very injurious as the fact was by the
would have been quiet and the poor people, he
said the letter. "I think this was doing the
best I could for the first time and perhaps it
was done doing it by something and then I was
soy mean but forced my way against Lady G.
directly would make doing suspect because had
written to me - I do not know what you think
about it - I have asked this for Caroline &
John but no advice was given by G. but
to me as she she tells me is sound - If you
think another way I am another man to tell
me - I do hope in God this suffering is from
the labour working in her mind, but I do not
want to say in huff that this kind of
matter is the side; how have if they keep
her then I fear she will be troubled and
as I see the same in frightened to death but
the January letter I wrote her was; she
said not of the fact of the fact - but to have
George who visited in January & show all
kindly that gladness my heart - Advice long
done done but need advice was ever the letter
