

Sunday -

They say have done here - I am more encouraged than words can
 say at your not having received a letter from me - Mary! how
 it frightens me for I write on Monday by the Boat & yesterday to
 have done so - I don't know how far you are, & how little chance have
 you of light any society where you are, or much concern in not
 having from me often. Sweet love here I wish I was with you
 at this moment, but indeed it wd be difficult to say when I wish
 myself there - I am very low to day, the more you will
 not consider it; my brother N. has got a violent inflammation
 in his head & Mr. Phipps who is come says it is in a very
 dangerous state, he is to be kept with leeches after Church &
 if that does not succeed is to be cupped, - dear Mary he is very
 low at himself yet struggling to appear cheerful & for me
 it kills me the very name, & I am this moment to day
 has just been out since; not feeling very well yesterday
 I took something last night, & thus have got off Church;
 I really am not in a state to be seen - Mr. Phipps promises to stay
 till the inflammation has subsided some way or other - he
 says in some ways he has known it to pass in others it
 has been fatal & he honestly told the people as it was he
 did not like the appearance of the eye - You may think
 for the rest of anxiety I am in; some would do me! Oh!
 my God! what are they words of; it is so dreadful, or trying
 to witness, & his father's poor business here is beyond the
 power of words - why is he so kind!! & why does it not
 fall upon them also however; doubt & unknown indeed are
 the ways of Providence! - fingers are here been receiving -
 then my eye & heart are so full I can say nothing -
 I shall send this by the Post & tomorrow will send you
 the list of the Boat when I am given a full account of the
 Leeches; but as they are not to be sent on the 2^d (Ch. Church)
 they will not be sent till after the Post is gone - I am

in return with what for the use of Volney Boyd -
You said if I could see him better than I do which is not
likely. I do in this respect. - I was afraid about some
with these but before he is now getting well -
I was delighted for some time to dine with the Winnings,
- the so I have them very much. They have more
- said in kind of towards me since I first knew
them, & that I cannot forget - to be a child if my
friend is with having I get her as I was before
my woman, - Boyd has slightly moved. Having
had from her some papers, but of course I shall
never see having had my part from her - Indeed
I am to be trusted - by J. B. for in the same. The
London, & her has made themselves very particular -
J. B. has not since seen me; I hope. Boyd will not be
any at this, I cannot. She has, & cannot but be giving
her - & entire person I have not heard of she is looking -
to said yesterday: it was very odd & very subtle indeed -
I do for my own sake have been - for my things must
I get from me to have Boyd & Boyd are now the
smallly you best of attached & I get Boyd

It for in the Winnings & in conversation say that we
have been particular I am to them; it will be very
noted as I have somebody has tried to be in a way
with them & that Boyd is very very much -
