

Unfortunately your servant visited some time for an answer
 to your most kind letter by way down from York and I was
 with the 2. I had not known of it till he was off; perhaps
 it is better as it is as I was ever for some time the same
 : even with you. I say this to prove to you I was not un-
 : sible of your kindness by heart here & the first moment
 I have I shut it to you - kind and another having just
 one word to me and as rather I believe Augustus with the first
 and however has since it up wing to the thing of life
 time to give the Christian & she would mind as married
 with the main Principles take away (11: Chap.) when I found you
Principles of letters on my table; it was a delight to me I was
 ever I wish; it was as when you have with me and as you
 say you wish you will with me as in days of years; as with I
 say the contents and affections contained in your best did
 as received one of these days that I felt it to my heart
 same - I was much surprised at not seeing you yesterday &
 the reason as I had heard you were not expected as I
 thought your return you would not make me a visit -
 I shall not feel anything else your best for I should be
begin who is unfriendly letters to you - as to myself you &
 was best pattern if you believe I was never it a help to find
 something to say to you; after the occasion & many proofs
 of kindness I have received from you per account but
 to spend time among the affairs you perhaps towards
 was in returned - I would not doubt wishing else to myself
 at different parts of your work; I was not surprised you
 will down leave and even wish other into your feelings
 with I fear however I was desired to have the usual
 Instructions of P. R. I was supposed not to possess the feelings

of others, it would be happier for me if I could be well & myself.
I must not I cannot accomplish that and therefore in
schemes longest way every thing that can be done of the
of thought but think for that I do prefer the affection &
regard of a few friends - One will not know me for this
and friend I am proud and do nothing to limit the nature
of the world I hope I stand forgiven - What can I do say in
said the shooting parties, had another added to them and
having interrupted him put a stop to my very much this week
of equal unity, but I know it has so happened that we have
not (this unity has not failed) to be pleasant - Not eight
- as you say, I have done that half a loaf is better than
no bread I venture to read you according to your wishes
the other half yet. I was not less pleased than you I
do it was being interrupted yesterday when I had hoped we
should have had such a rain but I shall read you
in per of your attempt to have better than ever
written to me; you know me very very little unless if you were
believe it possible for me to take any thing else that comes from
you - We have been out for half an hour not more in the
River come on & by the way friend of her chosen, nothing
from the rest - I am I urge & I must have a prospect
of the of the rest not come and out of me. I had you have
enough he was as frequently used with a thousand less
do more part let him be more more with for I know
is more me it if he has not put it in my eye I shall be
quite best - I hope you have been here - I am delighted
with the thought of seeing you this evening & believe me
was completely I was pleased & affected
