

Sunday Dec 9th 1806

My very dear dear Mr George, I wish I was in possession of a new  
 Dictionary which would be just as to all my heart full for your  
 unkind kindness towards me, what a dear dear letter I have  
 to thank you for, & how for more than twice you tell me to me -  
 I was more sufficiently told for how I parted upon every line and  
 how obliged I was for all the trouble you & readily how to him in  
 sending me such a full account of the two kind interior, &  
 which makes my blood run red, how can there Violence  
 possible way him in to set them, the kindest thing in our way  
 for him is, that he must be in a perpetual state of intermission  
 for otherwise the heart is what I hope it is not - how dear Mr  
My dear Angel / mother are so very unhappy to day, he is in fact,  
 put just however, but a flow of spirit quite alarming, I did  
 not believe him yesterday evening & then quitting the hope, he  
 talked with me a great deal about the J & Child, some with  
 worried & anxious not to show it, yet he cannot dear me & I  
 also: perceive but the plainly then running his mind is -  
 he has seem these persons who gave him that letter, by  
 which I know, our dear Savage, but he told us of a letter  
 of which he had got some interest from, I wish to tell he  
 said he was when known not to tell what you know, but  
 that some things were in respect that in it that without  
 naming names he had given it to the Chancellor - Madam  
 left an atom interior to do all the mischiefs she could to  
I so we can spoke when we will - I feel glad if the Q did not  
 feel offensive to that he made in possession, as to my dear  
Savage I have been ten thousand times better for his roughness  
 & roughness - Do thank God you are in affection, we are  
 you of the last step, but I know what you are, two of the  
shortest but that was evicted & I hope I may see return a little  
 more in your heart as you shall see I am perfect - Do re:

... than for your assurance of being an Spaniard let me say the  
same of myself. You told me I cannot see what I do not feel  
& when I tell you how deeply I love you, remember it comes from  
my heart; then I wish you in every part than described, & I do lay  
for the day when you will return to me - Some days my dream  
has about keeping about certain confidances I am not a it down  
as the greatest proof of your affection & good will towards me  
& the same you know of me the more I hope you will have  
reason to allow that I always tell you divine when a kindly  
gives as the effect of real friendship; I wish as much as you can  
for me to keep out of the scope, as I am confident however  
kindly we might out it wd be continued into the party  
language; thank God these young men in your time have not  
minded the subject again, I really pity them, you believe  
me though I know how to be a trifle towards me I have per-  
sistency enough to feel for her; you think she is a blind  
that it prevents she knows not how to divine them who see  
them to her, but let her conduct be seen as unkind she  
shall never receive revenge from me - Yesterday we read about  
D. Wolington & C. I believe we confidances, whenever  
want I shall tell you many things which I cannot by  
letter; but should not have that I am elated for  
some hindrance & why wish I could have been directly  
I feel it - I stay not to fast, but I own it is a hard  
matter for I do as has my Angel M. that when I see her  
wound, it kills me - She remains in London; a profess  
she is not so virtuous as I thought for, as the day I find  
she is playing Pranks with the 1st Quarter; what a bad  
Man, & yet in her old age she has continued on attack  
& when she lay too; Quell courage; William has been  
seen & desire her not to leave her room till he returns  
through evening - So night she stood in her Apartment  
with St. John, old Ed. & Arden by her; the Angel will

in the American Review, we set it right in the Justice  
Review, the Boys song & the Angel was delighted, still did  
not quit like Prison - He is much with Prison & Stamboul &  
I believe has just been sent of all his different work.  
I wish she is pendant - so far down here by way  
of a safe journal George left for with Ed Paul Bowling  
& Don't Jack; I believe he does this out of politeness to make  
you enjoy his country the more after the dear Confession  
- How I wanted for this evening, St. Mary, why are  
you a heir? yes down here I was sure I was confid in  
you both & rely on your Review; I show you side me to  
my three friends, & I shall never from speaking to you  
when any subject, God knows I am fully aware of my  
own faults & I trust they are as few as good lessons to me  
that it makes me more benign & pleasant, time & dear  
brightest conscience will I believe it but makes me try to  
mend & I always say to myself look at Review offices  
you amuse them - then very depressed on my seeing & I show  
not even named having heard from you; I thought it  
you both not - Don't say my thing effort & must  
be to my dear George; I show indeed the best  
for time, & I flatter myself when ever he has't a be  
side more to without it; I have tried the last steps  
& think they are good - My the by I wonder if  
you will side renewance for of 3 children children  
have got the children be & she is for enjoying about  
how best can project about into fit; Review will  
not let her put my name out of joint with you  
both; - God  bless you; By blowing to you dear books &  
which are scarcely of importance to you effort &
