

Dr. Vaughan to Mr. Col. H. Taylor

Aug. 25 1805

the D. of Gloucester's symptoms - for
His Majesty's information -

I am Sir

August 25. 1/2 past 2 o'clock

The hemorrhage which had abated
~~its violence~~ for some hours
turned with violence in the course
last night, and H. R. H. the Duke
of Gloucester's strength has sunk so
much as to ~~make me the most~~
~~convinced~~ ~~of the danger~~ that
I now consider the D. H. danger
as more imminent - His R. H. has

225

received the sacrament this
morning with great comfort
and comfort.
