

Duke of Clarence to Sir Henry Hallord.

Private
and
Confidential.

Beesby House.
May 2^d. 1830.
1/2 past 5 P.M.

Dear Sir,

"not confidential" of this day makes me very
uneasy and lament that I have had knowledge
which habitate these sad trials. Still I put
my trust in God and your medical skill what
we believe I have had but of men and surgeons
may get the same to myself in particular and
to the Empire generally. I agree with you
on the case of the King and be full in me and
I will know your devoted attachment to His
Majesty that you write the fact with the same
sorrow with a high opinion such melancholy

details. I have I am sorry on this most distressing
-ing situation of the King. I shall be most
anxious for the report of tomorrow and ever be.
-lieve me,

Dear Sir,

Yours truly

William Pitt
