

Lady Charlotte Finch. I have the pleasure to acquaint You that my dear Children underwent their operation with all possible and more than ^{expect} for Heroism, I trust that same Providence which has hitherto given me uncommon success in all my undertakings, will not withhold it from me at this time, as I can say with great truth it is not begun without Praying for his assistance as the greatest and best of Medicines I ~~can~~ can put my Confidence in.

If You my dear Friend should not think it troublesome I should be very much obliged to You if You would send me either the pattern or one of the ruffles which You work in Gobbel stick, I am afraid this is bad spelling but You will excuse it.

My Compliments to poor Lady Harriet Corryers, Her spirits I am afraid are not better, will not the Wedding of Miss Sophia be of some comfort to her.

I have fully determined that my Daughters
are not to go to town the 25th of this
month which of course will prolong Your
stay at Lord Winchelsea to whom and the
rest of Your Family I beg You to say every
thing that is proper for me.

I hope You found the Dutcheffs of
Beaufort some what easier about Lady
Mary Sommerset, Sir John Pringle
talks with Spirits about her I doubt
the anxious Parent to do so.

My Daughters and Heolynus beg to be
remembered to You.
