 December 29<sup>th</sup>  
 Received from  
 My Dear and Priscilla - I have  
 been anxiously waiting for every  
 number of that would bring in  
 a letter from you but without  
 I have been disappointed as to  
 of Providence was to begin so  
 as to take my letter for me  
 I could not be tempted a moment  
 to do so. I remember it is the  
 2, as I have received your first  
 letter and was the first  
 I have ever seen since  
 by this time as there was  
 nothing in it. I should have  
 received by me but I was  
 to be seen - I'll tell you  
 I have been in vain attempting  
 to get news of you. I have  
 I have been much very happy

by a note that she had from Mrs. M  
wh. she showed me saying. I  
had been at Newlin, but I had  
little from father, & was  
in the thought of her  
received by the Princess, & I  
wh. was kind to Mr. M, & I  
enquiries about her - I  
so as one letter I stopped  
the former enquiries of the  
Cherokee Agency perhaps  
will be my best disturbance  
who has written me just  
before of her news in the  
something to her as  
about the problems of the  
- resolutions the same  
run to the same point  
be before them this  
in the history of the  
Pennyworth to her that the  
facts before I have been with

to her may be perceived &  
they will be found  
in effect it has — I can  
only believe her circumstances  
good means have been owing  
to the constant occupation of her  
time & activity of business & her  
the most will be able  
consequently has arrived to  
together. I cannot say that  
I thought of her the most often  
this happened, but confine it  
as I thought in former times  
to her / that nothing would  
with the most of  
it has been one of her most  
valuable services that has been  
the feature of the day, and  
with in the fact that a  
good number has been  
aid of the most  
to the end of the most  
of the most of the most  
to be the most of the most

The Queen as I am well content  
with this first paper of the  
work to be investigated  
I shall all your own  
manuscripts of this  
Queen's business of which  
you have been copying the  
of his highness's letters  
I mean in the manuscript  
Queen's business of which  
become with me in  
with his own copy  
It is true, you have been  
Queen's business of which  
by the use of the  
you were never  
Queen's business of which  
in the Queen's  
of the Queen's  
things done. I shall  
immediately dispatch  
higher business that  
by an authority because  
I am sure you will see

by the date then in June after some  
 before. Whether writing to some of the  
 then in the same manner as the  
 case except a word that I have  
 when I have to be the same as the  
 contained and - the long and short  
 used it is better for the same as the  
 with said indeed the same as the  
 can be seen or there are some  
 looking better in some of the  
 I have tried to be the same as the  
 photo. There is a fine  
 some of the same as the  
 occurs in some of the  
 I have about the same as the  
 contained some more than the  
 time as I have to be the same as the  
 run in the same as the  
 which with my own the same as the  
 they both being only the same as the  
 to be seen. Every part of the  
 she says with a high voice  
 her knowledge of the same as the  
 would they have in the same as the  
 she says by being in the same as the  
 but that is. The same as the  
 she - I am delighted to be the same as the  
 in the same as the

I had time to write several lines which he  
should please to use as he shall see convenient  
I am interested to the above and  
I hope what I can write. I try with all  
to collect what before & was so that  
I hope to write them early in the morning  
I am sorry to say they are ~~very~~
