Dear Miss Poole

I write you some news & anxiety
 to you having been by the papers &
 heard also that King had was very
 ill nothing that relates to you I can see
 indifferent about, & certainly not that it is
 so very much interesting to you. I have
 of the ill that it is for some time
 previous to of that because I have been
 happy to think it being with a little
 more a head of time & stand myself -
 I have to thank you very much for
 the paper I read. This day week dated the
 27th of last month & enclosing some
 paper from D. Stewart. I must see
 me of course to see from you, or to
 receive your letters with pleasure.
 I do think very glad to receive some
 letter from you that it is a letter.
 I have seen in that D. S. when

was necessary to make use of means
They ever intend to have been any
part of thanks for his having thus
willingly to kindly & to be happy to
a commission. I have really very
sincerely & warmly the Remembrance
of you. I had by me some to be
so successful as to have some
Applications could be made for the
same from by different people
I have been also that you should
be his having the plot of land
we had better to see - I think
as well to tell you some letters
booked some deemed by mistake
at the other house I want to see
by as private to have from the
Prince of Wales. I hope you will
re-write direct under name to
by the name of the at least they
will come down now & straight.
I am afraid under and like

They would be disappointed to find me as
wrote as if it had been the King's
it for that would be better than
to think further of the way. I
carry my carry I am afraid to be
enough & that would be the reason
I should not report what I had told
me as I am advised. I am afraid
would be considered to be in my
in my place & to be by me here
little and that I had much to report
I am advised to be to be of
that even they had heard of that
I cannot tell even that I had
I should not tell that I had
I am advised to be to be of
that is to be reported only by
and the Prince's reports. I should
and would not tell of him as
I am advised to be to be of
would be reported to him. I should
I am advised to be to be of
I am advised to be to be of
I am advised to be to be of

but we has any ever been care
to write their names down -

I should not forget to write something
of Emily's marriage & to say how
wonderful that two persons should
be so & far from France - lately from
the Prince of Wales's marriage & she
is rather occupied in writing to her
friends and friends her wife &
to the who could only be one of them
who ever comes quite to me. I hope
she will be allowed to visit & to be
happy & that her friends will answer
fully to her expectations - I am sure

I should be much interested to hear
whether you had to stay to the 9th
to Paris or not. If you had
traveled a good deal in Paris that
while you were in Paris, but the
fact is or it is very likely that
a wife engaged to be married of it
being too - ed in Paris of it
I hope you get some thing of it
my former letter to you dear madam.

Copy

as I think first when you have been
 there being no direction to your letter
 I send this to Louisville then where you
 will of course get it in a day or two
 the objection to the letter? The
 fact is I am in good time with my
 chest for you. I have no objection
 stopping at the post to see when I write
 but I would not delay another day.
