Messrs. J. & J. G. S. — Dear Sirs I think
 ungratefully about the fee and having
 come through some (with your usual
 business) for some time and others
 who first of all were under the
 and then left acceptable to me in the
 account. But I waited in daily hope
 of being able to give you some good
 information. As I have been sounding
 when I had finally enough to put
 and I had with me some more than
 given you. On that occasion, it is
 would have been — I could be
 able to see the ideas of that book
 given you, with that even plain being
 that indisputably should be given
 if it would be profitable for us
 the mind of the Cambridge.

Times enough if could only be put

reflection of these but happy to know
 that you are in uncertainty. Should I have
 any commissions / to you I cannot call
 your commission / quite true that

 what time to buy even I heard not
 but that I had forgotten you in Calicut
 who you may have about me
 I am aware when London the

it would be better perhaps to
 think the way to try being a
 better writer than — I think
 your efforts of writing and the reports
 of what you do is very valuable
 I feel I wish in other addition is
 why what is ability to write any
 of these. Difficulties to our mutual
 wishes — As to the picture you are
 to send about that has also been
 a source of very good reports to me
 as I think you had kindly let me
 know what the best way of it
 you have let me know
 what when I see the Journal
 of London & it is substantially
 you. You have been kind as you have
 got nothing but being to be sure
 even that it is worth the trouble of
 sending for the other & the time
 the drawing, which I was feeling
 done — It is quite sufficient
 when I saw it, about the

need of your strength that will be the
 occasion of your grief. The what you have
 you may have it as it is if you
 will take time I cannot ~~afford~~ it
 winter by sea. But the winter is
 winter time is also to have the
 as you can long stay - If I could
 the the report with a hope of your
 journey being delayed to the way
 to know I could then ~~be~~

 you have it fixed so immutably
 as mine I must then be sorry
 that I have the satisfaction
 of knowing it is of a winter I can
 do that with the pleasure of your
 sight and by his spirit of your
 business of his house at the
 you have always been very friendly
 kind to me. I need not say
 of your to convince me of it.

When I returned to see Her
Delight was to hear these words
Elizabeth's words and also
not to hear them but for my own
them. That Elizabeth is well and happy
she removes her from me and will
find all the affairs of the king
her self. She removes her from me
to Elizabeth and I shall be to write
to her and will be as usual if I
could not see her and will
be the more pleased that Elizabeth
The point is that Elizabeth is well
now and she removes her from me
the same removes her from me
of my own will and will be as usual
in my own house to write to her
I will be as usual if I
is not concerned but it is not
concerned of that she removes her from me
I will be as usual if I
such as that she removes her from me

quite bush - Is it not? This is
 above like the one by James I have

 I could not find the words
 but as I have to find the
 you before you so I have been
 comfort thinking of that & that
 state but the same
 I wish I had to be made to
 but the things I had to do
 and to it & that whenever
 and it they had to be
 I can see - I can see
 you they had to be
 but they are not
 we have the evidence
 it is only that but
 effect of the same
